JULY 23-AUGUST 22

## LEO

### Happy Birthday, Leo

This year is all about spinning your solid-gold star power into a platinum production. While you're a natural in front of the cameras, Uranus is also teaching you how to work it behind the scenes. As Jupiter blazes through your money sector until your next birthday, try to control any big-baller urges or the Benjamins could slip through your fingers. And when it comes to romance, major attitude is the best way to hook up with a hottie this summer.

## LEO

**HERS** The sun joins love-struck Venus and lucky Jupiter in Leo, making you a triple threat in love this month: You're magnetic, unstoppable and irresistible. Increased confidence after the 23rd will have people following you wherever you go.
